

Sparkling Nirmalarians

Vol. 2 - 2015

NIRMALA CONVENT SCHOOL, BULANDSHAHR

Etiquette is defined as the customary code of polite behaviour in society or among members of a particular profession or group. I quote the words of Clarence Thomas – “Good manners will open doors that the best education cannot.”

In my opinion in this fast changing world, the rules of etiquette and grooming styles are undergoing a rapid change. Learners as young as for years can be conditioned for exhibiting so called appropriate behaviour in public places and even at home. It all begins with good communication and rewarding good behaviour rather than blowing off one's top. Good behaviour needs to be overlooked in young learners.

Yes, at times it does require nerves of steel, but “patience” is the key word if you want to win the game eventually. Children need to be told “what to do”, rather than telling them “what not to do”. In older children it is advisable to lay rules right in the beginning rather than fretting over it later. So just get them started Right. Respect, Integrity, Grace, Hospitality, and Tact are the care etiquettes that a person must possess to be appreciated and adored.

Every Parent envisions that his/her child grows up to be a well – educated and happy human being with good values.

In a team with hand-in-hand we nurture our precious gift of Almighty to bloom with an aroma of divine fragrance to prove themselves an asset for this institution, society, city and country at large.

I further take this opportunity to bring forth another edition of 'Sparkles' to enrich and aspire the parents with the experiences of the students and the endeavours of the school management.

May God Bless you All

A RECIPE FOR SUCCESSFUL LIFE

The best way to do great work is to love what you do. Success is the achievement of a person's goal or aim in life. If A is a success in life, then A equals X plus Y plus Z ($a=x+y+z$). Here, x is work; y is play; and z is keeping your mouth shut. The first and foremost things a person should do to accomplish his/her aim in life are to be in discipline and set the goal of his or her interest. Behaviour and etiquettes are the other major determinants that should be followed. Then comes knowledge and hard work which lead to the path of perfection. A person should always be obedient and respect his/her parents, teachers, and elders to get their blessings. There should be confidence but overconfidence and feeling of pride result in the downfall of a person. Meditation helps in increasing our concentration level and tolerance power which is beneficial to keep the mind cool and tireless. One should never lose hope and faith in God. We should never develop a feeling of jealousy by other's talents and qualities but should feel happy with whatever we have, and try to imbibe good values of others. These paths should be followed to get a sweet fruit of success in life. It should never be forgotten that success makes life easier; it does not make living easier. So we can say that nothing succeeds like success.

SCHOOL DAYS

The best time ever,
When we played together,
Little kids, we were,
Smiled with sweet tear,
In the playground, unlimited fun,
Scaring everyone with fake gun,
Happy and sad were only feelings,
Didn't ever care about all happenings,
Time went away,
And dark shadow says,
Now we are grown up,
Filled with what's going up,
We have a lot of worries,
But still we know, we are the best guys,
Never gonna forget these days,
When we'll learn our new ways,
Don't want to think, but
I'm gonna miss my school days.

BYE BYE NIRMALA

There is a feeling of pain of leaving this environment, so cool,
There is a feeling of separation of leaving my Nirmala Convent School.
Scoldings and punishments are like the black keys of Piano tunes,
Whereas the times spent with my friends like the white ones are sweet fumes.
The smiles I have passed here, and the tears I have shed,
The answers given correctly and the books not even read.
Are now only memories, but truly very awesome,
These are the things that made my life blossom.
AT LAST I JUST WANT TO SAY:
'THANKS' to each and every teacher,
You are the moulded gold.
'MISS YOU' to each and every
Nirmalarians, You all are the gems.
And together you all make the crown of NIRMALA,
Which is a lifelong gift for me, and I am proud to have it.
Bye-Bye Nirmala,
I'll always miss you!

SCHOOL LIFE

"As a child we always want to grow fast but now when we are ready to explore the world we realize that incomplete homework and broken toys were far better than the world outside" As a child grows so do his tensions and responsibilities. In school life there are tensions of studies rather I would suggest if we take up studies as daily routines like bathing, cooking etc then we would feel relieved of this tension. In school we have teachers to support and guide us. I agree that teachers care for us and love us like mother. We are taught from beginning that "School is our second home" and now this seems to be true. We always wanted freedom; we used to think it exists. School life is something which we cannot forget though we sigh with the idea that we are going to be deprived from it in the days to come. All the teachers and of course, Sister Principal and all others who have gone away forever and far from us, have left their imprints in our heart forever.
