NIRMALA CONVENT SCHOOL, BULANDSHAHR

"Blessed are those with a pure heart, for they shall see God" Bible

Dear Parents, Students, Well Wishers and Teachers,

Habits provide guidelines and patterns for our thinking and behaviour or for our way of acting in concrete life situations. We are defined by our attitudes and habits. These habits and attitudes will determine how we respond to life's challenges and opportunities. If the students develop the right set of habits and attitudes, they can be sure of a successful and meaningful life that will bring them joy of life. These habits lay the foundation, provide motivation and supply the physical, mental, emotional and spiritual energy for action.

What the students will cherish and feel deeply grateful for, are the habits; the teachers or parents fostered in them; the attitudes they nurtured; the behaviour patterns they cultivated in the young; the high standards they insisted on and the cross-border relationships they have fostered, which have now become part of their present lifestyle and are serving them well in their successful career.

Develop in them a deep belief that they are prize-worthy and have many beautiful qualities and talents; that they possess many strengths that can make them winners in life. So very frequently, there is so much discounting done of the young by significant persons in their life, like their own parents, family members and teachers. Being figures of great influence for the young, the latter internalize these as injunctions for life and living. Teach them to destroy the myth that destructive competition (getting the better of the other by any means, after by unfair means) is the only road to success. Instead, help them to discover through practice, that so much more can be achieved when they work together, cooperatively and collaboratively.

As I conclude, I humbly request you all to imbibe the good values and be a role model to our young children.

May God Bless You All

Sr. Daisy

Principal

Grammar in Verse

Three little words, You often see,
Are articles 'a' 'an' and 'the'.
A noun is the name of anything,
A school or tool, a ring or swing.
Adjectives tell the kind of noun,
As 'great' 'small' 'pretty' 'white' and 'brown'.
Instead of nouns, pronouns stand
'His head' 'Her face' 'Your neck' 'my hand'
Verbs tell something to be done,
To 'read' 'count' 'laugh' and 'sing'.
Adverbs describe the verbs,
As 'quickly' 'partly' 'fully' or 'down'.
Conjunctions join the words together,
As men 'and' women wind 'and' weather.
The preposition always stands before,
The noun as 'in' or 'through' the door.
The interjection shows surprise,
As 'ah!' 'how happy!' 'oh!' 'how wise!'
These are called nine parts of speech,
Which have rules that you can't breach.

Exam Time

Every year they come, they go,
And all you can do,
Is study, study, study.
Is it worth in the end,
Before the chaos hits the door?
Before you write one word?
Is that boy laughing in the rain?
Don't get distracted,
Waiting for that bell to ring.
Go home, think that you did well,
Once the results come,
You're ready for the shouting,
Oh God..Oh God....It's exam time.....

A Blind Man With a Lamp

Once there lived a blind man in a small town. He always carried a lighted lamp in his hand whenever he went out at night. On one dark night he was going with his lighted lamp in his hand. A group of men were passing that way. They saw the blind man and made fun of him. They said, "O Blind man why do you carry the lighted lamp? You are blind and cannot see anything". The blind man politely said, "This is not for me, but for you people who have eyes. You may not see a blind man coming and push him". They felt ashamed and begged pardon.

You Can-If You Think You Can

A survey of exceptionally successful people concluded that the supreme secret of success is faith, that is, the "can do" attitude. Unlike ordinary people, successful people have acquired the nature to perceive possibilities even when things seem impossible. That means what you think is going to happen, tends to happen. Success lies in the mind and in belief on our own abilities. Our late President Mr. A.P.J Abdul Kalam once said, "Dream, dream, dream, dream results in thoughts and thoughts result in action." Nothing is out of our reach until you are confident of getting it. For becoming successful, hard work & confidence are the key words. Strengthening self confidence is therefore, essential for success. Observing others who have mastered a practice is extremely helpful in strengthening self confidence. DAS-2002 4th rank topper Mr. Mayank said that during his preparations he used to see the trainees and think that if they can do why can't he. There was not much difference between them and him. It boosted his confidence. Another thing necessary to strengthen self-confidence is support. With these points in mind, go for what you want and get it. As Henry Thoreau said, "Men are born to succeed not to fail."

Live Life Joyfully

The best way to do great work is to love what you do. The key stone to success is hard work. An ideal student is one who is disciplined, civilised, hard working and has moral values. Our attitude and our choices make our life. Thoughts become our words, words become our actions, actions become our habits, habits become our character and character becomes our destiny. A successful person is one who has accomplished his goal in life and has all the qualities of an ideal student. We should- be obedient, respect our parents, teachers and all elders, have faith in God and value the feelings of others in order to become a good human being. Students should run for knowledge, not for marks and grades to achieve their aim and get success. Other than education, sports and games are also important to ensure a good health and keep our body physically as well as mentally active. We should remember that success doesn't make life easier but it makes living easier. So, do well and be good.

True Friends

The story tells that two friends were walking through the desert. During some point of the journey they had an argument, and one friend slapped the other in the face.

The one who got slapped was hurt, but without saying anything, he wrote in the sand "Today my best friend slapped me on the face."

They kept on walking until they found the oasis, where they decided to take a bath. The one who had been slapped got stuck in the mire and started drowning, but the friend saved him. After he recovered from drowning, he wrote on a stone "Today my best friend saved my life."

The friend who had slapped and saved his best friend asked him, "After I hurt you, you wrote in the sand and now, you write on a stone, why?" The other friend replied "When someone hurts us we should write it in sand where winds of forgiveness can erase it away. But, when someone does something for us, we must engrave it on stone where no wind can ever erase it".
